1330	1st Javelin	}	
1430	1st Weight	}	

There are **MEDALS** for the North of England Championships and there are **NO** Standards.

As this is the first of this Championship, which means we have no idea of possible entries, to ensure all track athletes get a meaningful race and thus time, certainly in the shorter races, the gender and age groups will be mixed to put athletes with similar times in each race, with the slowest runners starting the series with the fastest runners finishing off the series.

The medals will be based on combining all the results, with the fastest three times recorded for each age group being awarded the medals.
