LETTERS

POLANIK 1k DISCUS.

At the recent B.M.A.F. Championships, both of my Discus's failed inspection because of the thickness at the centre, which should have been between 37-39mm. Both were discovered to be 41mm hence they were declared illegal for competition, despite the fact they had UKA/IAAF markings.

On returning home I go in touch with Neuff, explained what had happened. I was asked to return them, and following return to the makers it was confirmed they were 41mm. The makers have now replaced both implements.

Moral of this is, all Athletes having purchased equipment should ensure they meet the proper specifications, even if they have the relevant marking from the manufacturers.

JIM SLOAN, Annan & district AC.

GINGE FULLEN sent this picture of Les D'Arcy from Wakefield. Having just turned 90 LES competed in the World Masters Championships. He broke the UK Shot put record with a throw of 6.66 and established new records in that age group in the Weight and Hammer with throws of 6.60m and 17.74m respectively. Les is also a World Champion at Table Tennis having won Gold and Silver in the

MASTERS ATHLETICS AUTUMN 2011.

doubles and singles last year in China and formerly second in the world in Weightlifting in the over 80 age group. Unlike Athletics both those sports stop competition at the over 80 age group.

Dear Sir

In considering the views concerning master's age groups with respect to team competitions, I would like to suggest a very different approach to how we determine team winners. Although older athletes make up a large proportion of competitors in most events, team awards are uncommon and when they are given close results are rare. Indeed, many clubs have good runners but rarely will, if ever, have a team in any of the age groups. I would like to propose the following approach.

A team should consist of between four and six scorers (depending on the size of the field) and should either cover all age groups or be split into under 55 and over 55 (or possibly making the division at 50). The points each athlete would score would be their position within their own age group. With four to score it would be possible for a team to score four points by getting winners in four different age groups. It would be a club very worthy of a team award, but which may not have enough finishers in a single ten year age group to score.

My feeling is that this would result in competition which is both fiercer and fairer than at present at national level, and which would make organisers of local races much more willing to offer team awards. This approach is very flexible: it would be possible to have a single team prize covering both men and ladies where athletes of all ages are equally important.

Michael Hand
Cheltenham Harriers

A query passed to me by Martin Duff.

Hello Martin,

Hope all's well with you. I have just received most recent copy of Masters' Athletics.

My query is a small matter really but, the results shown within your article for M65-74 teams don't include Bingley (me) as an incomplete team nor my time. Do you know of any reason for this omission and, when you get time after Sacramento, who do I go to get the details recorded.

Cheers for now. All the best. Fred.

Simple answer here! Fred was not included in the official results. However, his time was 20.12 as a member of an incomplete Bingley Harriers team.
Editor.

A good picture sent by Jenny Doxley, of Jason Harne, Gavin Jones and Martin Tighe, British Gold medallists Marathon M35 Team.

Hi Brian,

Congratulations on another excellent edition. Although my competitive days are over I enjoy reading reports and results of those still competing.

Some points worthy of comment -

Page 4 - IAAF Rule 141 - My personal view on the 35/40 Master/Veteran borderline is not relevant but the on-going confusion and continual changes are totally detrimental. In practice I would point out that promoters and others can recognise and reward whatever age categories they wish so long as they do not contravene specific rules nor use incorrect titles. For instance, in the past the Gwent Cross country League had a Women's 30-35 category which operated for several years with no problems. I concede Bridget's point regarding financial implications but feel she has confused some other points (W35 athletes being prevented from training in a stadium).

Page 4 - Cheques - Recently an announcement was made that cheques will now continue beyond 2018 until a suitable alternative is available.

Page 5 - Being pedantic - Until ratified Caroline Powell's performance is not yet a new World Record.

JOHN COLLINS.

Someone needs to inform the press and TV, of this fact, as they always shout WORLD RECORD never unratiated WORLD RECORD.
Editor.

Sacramento A disappointed Tony Bowman comments.

Looking at the entry booklet for these games I got the impression (wrongly!), these were going to be something special. I was fooled by the glossy Brochure and should have known better, having competed in the United States Masters Indoor a few years ago and had experienced how badly they were run.

I certainly did not expect the world championships to be held in such an amateur, inexperienced manner. The facts:

One) there were no programs only a daily list of events stuck to the call room table for the benefit of officials checking in the athletes. Competitors were given an entry list and schedule, however this only enabled the athlete to determine which day and what time they were competing, it did not enable an observer to follow the day's programme.

Two) I know it's hard to believe, but there were no changing rooms' showers.

Three) the toilet facilities for up to 4500 competitors and many spectators was disgusting! They consisted of a portaloo one for men, and one for Women. The men's portaloo was designed for use by seven people. There were in addition two portaloo's in the call room and an additional four units on the warm up track. And it difficult it is to believe a grand total of two wash basins!

Four) only a third of the main stand was covered. Consequently this area was packed with spectators sheltering from the searing sun, packed like sardines in a tin.

Five) at almost all championships I have attended it is possible to find something to eat. Not here! The only refreshment available was served from a small Caravan track side, providing hot dogs, sandwiches and cold /hot drinks.

Outside of the stadium there was a sandwich shop in the college complex. What an opportunity the organizers had missed here.

Six) the party at \$50.00 was a complete rip off. The only food available was provided by eight kiosks serving bite sized portions of nibbles. Where were the plates of hot food ?, There was plenty of alcohol. However, the athletes in general do not tend to consume a great deal of drink. On the whole well below the expected standard from one of the World's richest nations.

Seven) they managed to run out of medals, apparently due to miscalculation!

Eight) it appeared that heats were compiled from those who had entered the competition, rather than those who were actually there waiting to complete. This meant that races had to be rearranged on the spot. Inefficient and confusing.

Nine) it was hardly surprising that the organisers had not arranged for the transfer of clothing between start and finish. Therefore it was necessary to collect your own clothing from the start. However you were not allowed to walk on the grass, so therefore you had to walk on the concrete in spikes or your bare feet! does that make sense?

Ten) in the heat of the 300 metres hurdles the competitors were issued leg numbers by the call room. When we got to the start these numbers act did not match those on the starters list. Consequently we all have to remove the numbers, the confused recorders were not aware of this fact because the starter had not told them.

Eleven) my brother who lives in Boston (USA not Lincolnshire) Had arranged to meet me due to the fact there was no programme and officials did not appear to know what was going on, the first knowledge he had of my existence was when my name came up on the display board minutes before the start of the race.

Twelve) I stayed in a city centre hotel in downtown Sacramento. Things looked good when I saw a notice board outside my hotel, that a shuttle service would run a between designated hotels and the track. Actually this never happened, instead I caught the public bus service which entailed a longer walk to the track, and latterly I found a more direct route using the light railway system. This entailed having to walk from my hotel running the gauntlet past a group of economically dispossessed, before getting to the train stop. Unfortunately several of these people turned out to be my travelling companions once on the train.

13) The souvenir wear, a T shirt with a games logo on the front and a list of British competitors on the back would have cost \$50.00 which was not good value for money .

14) On Monday, the 11th of July I had to attend a medal presentation at 5.30 AM. I had a 200 metre race, in another stadium so I thought I could catch the inter stadium shuttle bus. The driver drove the bus to the main stadium and then, he told us he would not run again until 5.00 PM.

Hence another long walk to take the public bus to the main stadium , a 50 minute journey at the hottest time of the day.

15) Road signs to the championships, and to the stadiums ..

16) I ordered a photograph from the official photographer, but when I called to collect it was not the correct one, so the process had to be repeated.

17) Normally finishing times are included on winners certificates, but not in the USA.

MASTERS ATHLETICS AUTUMN 2011.

18) I have observed U.S. Masters Officials at least two of our European championships; they were taking notes on how we organize our events.

Conclusion) the championships were a disgrace. We expect more from one of the world's most developed nations. In many ways I thought I was back at a school's sports day. Serious questions need to be asked before the United States of America are allowed to stage the World Masters Championships in the future.

According to the competition manual . Sacramento was proud to hold this tremendous international event. The local organizing committee, meeting officials and general public would do all they can to make your visit to California and most memorable one.

It certainly was, but not how they intended!

Views from our other competitors and guests would be appreciated.

Tony Bowman, 25 the poplars, Guiseley, LS209PF, England.

CHAIRMAN'S REPORT ARTHUR KIMBER

The main event since the last issue of Masters Athletics was the World Track and Field Championships in Sacramento, California, where quite a small team of British athletes took a creditable fourth place in the medals table, behind the U.S.A., Germany and Australia. In August, the annual Inter Area Track and Field Challenge was extremely competitive with very close finishes in all three matches, men's, and women's and overall. Southern Veterans were the winners of the men's and overall matches and Midland Masters of the women's match. The BMAF decathlon/heptathlon championships are being held a few days after the time of writing. Road runners have been busy competing in two BMAF championships, the half marathon in Leek and the 10 miles in Hexham, and the race walkers in the BMAF championships in Leicester.

The World Masters Assembly in Sacramento awarded the 2015 track and field championships to Lyon, France, a return to Europe after Sacramento this year and Porto Alegre, Brazil, in 2013, and easily accessible for British athletes.

I have received a number of comments about the idea of inaugurating an indoor inter area match, all in favour, and I will make a detailed presentation to the regional delegates at our meeting at the end of October.

The road runners will be busy this Autumn at the BMAF 10k championships at Exmouth and the Marathon at Abingdon in October, and the cross country season starts with the B.M.A.F relays at Derby, also in October, followed in November by the very popular British and Irish Masters International in Glasgow.

If you are taking a welcome break at the end of the track season, I hope you will recover well to get back to a good winter's training.

SECRETARY'S REPORT BRIDGET CUSHEN.

Change to IAAF Rule 141

At the I.A.A.F Congress in Daegu, Delegates voted by a large majority to amend the above Rule to recognise men and women as Masters at aged 35 years for all events, i.e. Stadia and all Non Stadia. The new Rule takes effect from 1 November 2011.

World Masters Athletics Congress

This lively and well attended biennial Congress took place in July in Sacramento on one of the Rest Days and we are indebted to four members Lesley Richardson, Archie Jenkins, Mike May and Ian Richards who came along with me, particularly Ian who spent so much time scrutinising Drafts beforehand. The following decisions were taken:

- Budapest won the vote to host the 2014 World Masters Indoor Championships. Non Stadia events i.e. throws, (with two hammer throwing areas), road walks/runs/cross-country relays are included.
- Lyon, France, will be the venue for the 2015 World Track & Field Championships.
- In an update on the 2012 World Masters Indoor in Jyväskylä, the Finns reported that there are 1,312 hotel rooms at from €59-106 and School accommodation available at €25. The Half Marathon course is described as fast and scenic. How to enter details in Fixtures on our web site.
- The W.M.A Age Factors for the multi events was completed in 2010 and are available on www.world-masters-athletics.org.
- W.M.A Indoor Championships will in future include either a ½ marathon or a 10km.
- A Road Racing Commission/Task Force to be appointed to explore "stand alone" Championships in the Non Stadia distances.

► Change to World and Regional biennial Championships

WMA Council proposed that we change the year of our Championships from odd numbered years to even numbered years effective from 2016 due to potential conflicts with another organisation, the International Masters Games Association. The Proposal was carried. The bidding team from Perth, unsuccessful in their bid to host 2015, was awarded the WMA 2016 Track & Field Championships. To effectively achieve this change the 2015 Championships will be held in Lyon, but the next T & F will be held in 2016 in Perth, Australia, and from then on in each even numbered year, 2018, 2020 etc. This means that the WMA Indoors will be in Budapest in 2014, but then not until 2017, a three year gap. The European T & F Championships, venues not decided beyond Izmir in 2014, will

MASTERS ATHLETICS AUTUMN 2011

then jump to 2017. Some may view this as WMA's acquiescence to the Masters Games Association who promotes a World Games every four years involving some 15 core sports.

► False Starts

I would also like to reiterate that in European or World Masters Championships, you are only disqualified if you make two false starts.

► Medals from Sacramento

We will continue to monitor the team and relays medals situation and update on our web site.

► Lyon resident, Pierre Quinon, the 1984 Olympic pole vault gold medallist and a former 5.82m World Record holder led the successful Lyon 2015 bidding team in Sacramento. We learned of his death on 17 August aged 47. He leaves a wife and two children.

The Editor of "Masters Athletics" would like to congratulate BRIDGET on her re-election to the IAAF Masters Committee, at the Congress in Daegu.

Yamilé Aldama (14/8/72) set a new British W35 Triple Jump record competing for Great Britain in the World Championships in Daegu on the 1st September.

The new distance was 14.50 just one centimetre down on the World Masters record.

Mike Hazlewood (Throws Pentathlon Records) has a new mail address it is:

mr.mike.hazlewood@gmail.com.

SO WHAT DID ALL THAT TRAINING BACK THEN DO TO THE HEARTS OF RUNNERS WHO DID HIGH MILEAGE AND ARE NOW IN THEIR 60S AND 70S?

Having recently been told that I may eventually need a pacemaker to go with the beta-blockers to suppress my heart rate and the aspirin (or warfarin) to prevent me getting a stroke, I discover that I am not alone with such diagnoses, writes Martin Duff.

Former internationals like the late Roy Fowler, Bernie Ford and Don Fairclough are all known to sport pacemakers but many more, such as Stan Eldon and Gerry North are also heart problem sufferers.

To try to discover just what proportion of high mileage runners from the 1970s are now suffering from heart problems and to statistically see if there is a link (as my cardiologist suggests) between that mileage and current problems I intend to seek the help of (hopefully) 1000 runners who are now over 60 and who did high mileage in the past.

I will then send a questionnaire for completion, before analysing the answers with a view to establishing reasons why and what present day runners and their coaches should look out for. To take part in the survey, please contact me by, preferably, email at martin.martinduff@btinternet.com or by post to Ramatuelle, Spronketts Lane, Warninglid, West Sussex, RH17 5SA.

Karen Harewood, Corby AC set a new W35 British Best, running in the BMC Grand Prix at Birmingham. The GB international ran 2:02.88 in the Women's 800 metres "A" race on the 20th August.

**KEITH WHO? A PROFILE OF
BMAF 1500M CHAMPION
KETH EWING
Words; Peter Hamilton
Photograph; Tom Phillips**

Slipping seamlessly under the radar to win the National M50 1500m title, Keith Ewing, in his first year in the age group could easily provoke the question, where has this man come from? Not widely known on the circuit, the affable, quietly spoken Ewing has not corrected his attributed pb on the Power of 10 rankings, but were he to do so, his best time of 3.42 set in the early 80s in his native New Zealand might suddenly draw more

attention as well as testify to the pedigree he still displays 30 years on.

So where has he been all this time after having arrived on these shores in 1982 from Auckland where he was working as a journalist on a daily newspaper with an ambition to take his running career to the next stage?

"I was training with and was being coached by John Walker prior to coming to the UK. I had achieved my 1500m time in an international race in Christchurch, just pipping Scotland's John Robson for about 10th place in a field of 12!

"Most young Kiwis come to Europe before heading home and settling down to have families – it's what we call 'overseas experience' and often includes working in bars in London and driving across Europe in camper vans – but I had an additional motivation which was to compete in athletics."

After lodging with relatives in Gloucester when he first arrived (where he set the Gloucester AC record for the mile at 4.05.0, which still survives), it all went badly wrong. The day before he was due to compete in the AAAs 1500m championships at Crystal Palace; Keith sprained his ankle while training with Walker.

"It was just one of those unfortunate things," says Ewing. "We were literally just jogging and I stepped off a kerb and went over on my ankle. Within minutes it was the size of a balloon. I couldn't believe it. To make matters worse I tried to get back into training too soon which caused an Achilles problem that

dragged on for months. By this time I had run out of money and needed to find work."

Keith, a British passport holder, found work as a journalist on the weekly Hampshire Chronicle newspaper in Winchester, where he met his wife Janie and started family life. Track running became a distant memory although the odd 10km race and two London Marathons (2hrs 56mins for both) meant he kept his running hand in from time-to-time. Only when his son Joseph ran 2m 12secs for 800m as a 14-year-old and expressed interest in joining a club was Keith's interest fully rekindled. The comeback is a familiar and not a particularly unique reintroduction to athletics

"I was sitting at Blackheath and Bromley watching Joseph compete and I thought to myself, if I am spending so much time watching athletics, I might as well have a crack at it again."

This led to Ewing senior's enrolment at Blackheath and soon he was turning out and scoring in the Kent division of the SCVAC league in the 2008 season, running a solid 2.11.6 in his comeback year. But, never far from any athlete's return to competition after a sustained absence, injury interrupted the following two seasons, with a 2.14.6 800 in 2009 and only two track races in 2010, the best being a 4.28.3 1500m. What seems to have made a difference in 2011 is a solid winter that included weekly track sessions at Sutcliffe Park with that eternal motivator, graduation to a new age group.

2011 has not been a complete bed of roses. In March he lost his job as communications director for a charitable organisation. This led to an action plan for re-employment that involved a training course occupying several weekends. In fact Ewing raced back down the MI following his Birmingham victory to spend the remainder of the weekend studying counselling and psychotherapy in north London, and it was required attendance on the course in February that caused him to miss the National Indoor championships, an absence that must have been noticed by fellow competitors after he had opened the season with a front running 800 win in 2.08.56 at the VAC championships at Pickett's Lock.

Perhaps having seen himself as an 800m specialist in the past (he still holds the Auckland Secondary Schools record at 1m 54.4 and was NZ under-17 800m title holder), 1500m may now be the natural focus, with strength backed up by a 77.27 half marathon and a 34.06 10k at Eastleigh in March. In fact due to being in good shape from the winter and having missed the indoor champs, he gave the BMAF cross country a go. Ewing's blend of strength and speed resulted in 5th place (3rd Englishman, 18 seconds down on distance specialist Mike Deegan) which should augur well when selection is made for the 2011 Home Countries international.

With a national title in the bag, the time came for all that training to be tested in a quest for times and 2.05.7 twice and 4.15.1 in the second half of the season have placed him firmly at the top of the rankings, in fact he has the top three 800m times. A consummate team man, Ewing has gained valuable points all season for Blackheath in the league fixtures, racing in the lower M35 age group. The way forward is best summed up by Ewing himself. "I am loving athletics again. Each training session and race is a joy because as a vet you never know when the next injury may strike. Just keeping the show on the road feels like a major achievement. If you get to run fast, it's a bonus."

Clearly a successful balance has been established. Now re-employed as a communications manager at Macmillan Cancer Support, slipping under the athletics radar in future is clearly going to be difficult.

INTERVIEWS BY ALASTAIR AITKEN

ANGELA COPSON (*British W60 record of 5:20.22 and won the 5k in 19:36.90*)

She was injured last year but gradually came back through the winter. Her coach Ian Wilson remarked "She is running as well this year as she was 2 years ago. She had never really been properly injured till last year, got treatment and gradually came back through the cross country season. Her biggest track meeting for her was the British Masters and now she goes to Sacramento. It will be interesting to see how she does!

Angela Copson pointed out "Cross-country is my best. Things get a bit serious on the track. I think I am too old to be serious "However she is kept young by the people who run with her while training in the Midlands.

LUCY HODGSON (W35) 5k winner in 18:12.91 "That was a personal best for me as I have never run 5k on the track before, only on the road. I normally do cross-country and my best was coming 31st in the Southern last year."

COLIN SHAFTO (76) was the M75 high jump record holder with 1.31 from last year and, looks back to when he first broke records and ran 110 hurdles in the '40 to 45' group. He has been a regular at these Championships since those early days as a Master. His rival 75 year old,

TONY CROKER, improved on Shafto's height with 1.33. Croker, who is a coach with Kidderminster & Stourport AC did 6ft 4 1/2, in old measurements as a 24 year old. He remarks "I did 1.40 this year in the European and was one centimetre away from the World record.' He

remembers his first interest in athletics was as the 1948 Olympics approached and then, when he was at school and with Thanet AC he did the high jump, as there was no one else to do it at the time.

Old Guard, shorten the winter, Track and Field Championships

5th Sunday morning Open Competition 16th October
2011, 10.00 AM – 12.30

Venue: Stourport on Severn Sports Centre, Worcestershire

Events: 150, 300, 600, Mile, High Jump, Hammer, Shot

6th Sunday morning Open Competition 25th March 2012
10.00 AM -12.30

Venue Stourport on Severn Sports Club

Events 100, 200, 400, 800, Javelin, Discus, Long Jump

All Masters level five year age groups, women and men
Sponsored by Kidderminster and Stourport Athletics Club

Fees: £2.00 first event; all additional events £1.00

Free car parking, Sports Centre open for bar, cafeteria,
changing, showers, Information on local Hotels/Boarding
Houses.

Or from Tony Crocker, Croft Cottage, Pershore Road,
Upton Snodsbury, Worcestershire. WR7 4NR (SAE please

IRIS HOLDER won the triple jump with a new British record for the over 70's of 7.07. She said "I was absolutely amazed because I had not jumped for 2 years

with injury. It was a lot of mental preparation and things held together...

I was absolutely thrilled. My son Craig ran yesterday and came fifth in the 400. He was a bit disappointed as he said his legs gave way."

STEVE LINSELL (47 did a Championship Best in M45 high jump of 1.84.) "I used to hold the British Record till last week of 1.85. My best was 2.00 in 1997--I had a stagnant period in the '80's as I did 1.95 at 18. then, finally did 2.00 at 33. I have been struggling most of the year with an Achilles. I ruptured it in 2005. Most of the jumping I have been doing has been in the competitions because it hurts to also train on it as well. That means my technique is ropey but I got away with it today."

NANCY HITCHMOUGH, as an M60 ran to a British record of 5:27.02 on the Saturday and then on Sunday in the W60 800 ran 2:36.03 Also a British record. Did she feel that the 800 was one of her best results "Yes, as I broke the record last year with 2:37.42 so, to break it a year on is quite good really"

'The time I started was when the Indoor European and 'World invitational Masters' came to the Birmingham Indoor Arena and somebody said to me 'You should try that and I did not know what a big event it was. After that I started doing the 'Nationals'

LAURA MAHADY (Winner of 400/800 W50. in 62.88/2:24.81)

"I did not have a particularly good Winter after Finland.

I did the World's 2 years ago. I won the 800 and set a European record of 2:19 in Finland. I think last year was payback time. Since March I took a break. At Easter I went to Club La Santa and turning the heat up since then. Last three weeks it has been good. It has been hard in the winter in Aberdeen--Appalling. Six weeks solid snow. Last week at Meadowbank I did 2:23 (2:24.81 in the British Masters). In the Masters I was out on my own. I needed to be challenged to run at my best. It is great to be here and catching up with everybody."

ERIC SHIRLEY (82) The M80-800 gold medallist. 1956,58, and 1960 AAA's Champion for the 3k steeplechase and Olympic finalist 1956.

"I do this, not just for me, to set an example for other people. Even internationals today--'Keep Going!' Stay in athletics, 'Stay with your club and compete. Forget your pride, that you were a great Champion once, it's not today. Have fun in club athletics, Masters Athletics it's Great!"

ROB ANDREW (48) The M45 800/1500 winner.

Looking back at his most satisfying result in his life "I was delighted to win the European Masters 800 last Summer. It may not be the quickest I have run a race but was pleased to have won because of the competition. I won the 1500 three days earlier (4:14.22) and I was really wanting to make it a double. I ran the race from the front, like today, but quicker. To win that gave me most pleasure of any race I have won. I doubt whether I would ever get the opportunity again to double at the European Championships It was a personal Masters Best of 2:00.56 for me. The nature as well as the win I found particularly pleasing."

KEVIN ARCHER (M55, 1500 Champ)

"Looking back to my best result was in the 800/1500 M45' when I beat Pete Molloy over 1500 and Pete Browne over 800 at the British Vets at Newport 1998. They were World class vets.

'I am 58 now. I moved to Weymouth and the sea air has kept me interested. No track running but on grass and beach. If I was able to get to a track I would be a tad faster."

DAVID OXLAND (M60 800/1500/5000)

"I joined a club seven years ago when I was a fun runner. I have done two PB's in the last month. At Horwich last week I did a Championship best of 17.03 (PB by one second). Oxford 10k did 35.53. Moving up an age band to the 60's has given me a new lease of life."

BARRY FERGUSON has been in Vets athletics since he was a vet in his 40's

His biggest memory was the World Masters Sprint hurdles a while back.

"I actually won the sprint hurdles World Championship in San Sebastian, when I was top of the 60 age group as a 64 year old. It was a trying time getting there! On the morning I was supposed to be flying I was at home looking for my passport which, to this day, I have not found. The flight went without me. I managed through phone calls etc to get myself to the passport office. Within a day of me phoning, catching up with them in

San Sebastian I knocked myself out mentally. For days I did not do anything (*Did not compete in the 300h*) and focused on the sprint hurdles which I won. (*Barry had to convince the passport office with pictures of him competing and with several other forms and then they still contacted San Sebastian before they let him have his new passport--All a hair raising story.*)

ANN WHEELER .3K and 5k winner in the walks.

"I have been race walking for 15 years since the W40 Group. I have had a lot of injuries. Got a new coach Dave Ratcliffe. This year has been good as I won the 10k & 20k in my age group in the European and got a British record for 20k of 2:01.44 and it was 2:02 and stood for 18 years. I changed from the Leicester walking club. We were the National 10 mile champions and got bronze in the 20k. I was 2nd in the in the Inter-Counties representing Warwickshire so I was pleased with that. This year has turned out to be quite good on the whole. All that training in the rain was worth it."

ANNE MARTIN (W75 2000m steeplechase WR and British Masters 1500 winner)

"I ran in my Youth but then did not do anything till I was 60. I thought I would run a marathon just like that. I did finish it then I thought, I could do better if I trained harder. I then won my age group in my 60's"

DAVID MORWOOD (JUNE 2011)

Born 9/10/70

British Masters 1500/5000 CHAMP 'M40' in 2011 and in 2008, as an 'M35' won the British & Irish International cross country Championships in Northern Ireland.

The 2011 track season went well for David Morwood as he explains:-

"I ran 14.56 at the British Milers Club Grand Prix in Sports City, on the 28th of May, which I was delighted with.

There are not too many 40 year olds who do under 15 minutes -Nobody in the last few years I could see. My objective of the season was to break 15 minutes for 5000. I did it last year but I was only 39. I wanted to do it when I was 40

Some would think that 40 is the real Masters age not 35?

"You are absolutely right. Yes the BMAF have introduced 35 as a category and, I would encourage any 35 year olds to run in the category because it opens up another area of competition for guys who, maybe aren't getting any quicker but it maintains their motivation to 40. I accept that real masters athletics starts at the age of 40' 'I won the two indoor middle distance races at Lee Valley 1500/3k and followed that up with a bronze at the European's, be that it was not a great race for me. I was happy to come away with something.'

David had an interesting start to his sporting career:-

"When I was a teenager I was involved in the triathlon. That was my love throughout my teens and early 20's it was a very time consuming sport and, when I finished University I did not have the time to devote to triathlons. I

had been training for three disciplines so, I stopped the triathlon and concentrated on the cycling. I raced the bicycle all the way through the 90's. Got a first category license and raced up until the year 2000. Then a family came along and I decided cycling on a Sunday, when you go out for four or five hours or even six hours, that does not go down well at home. I then thought I would go back to running again to keep myself in shape and, I found the strength developed over 8 or 10 years, I had a fairly decent heart and set of lungs so, running ability came back quite quickly. I find, having said that, all my track PB's I set last season when I was 39. 4.03.32 for 1500 and 8:32.51 for 3000, 14.51.7 for 5000 so, if I can get anywhere near that I will be over the moon. Now that I have reached the age of 40 what I want to do is try to maintain my form.

Have there been any people in athletics that David Morwood admires?

"I admire my coach who is Mark Kirk. A Commonwealth Games 800 runner. He has coached me for the last six or seven years. He has dragged me from a 'want to be marathon runner' to a track runner. When I first started with Mark I could not run a sub-70 second lap at the age of 33 or 34. Mark has dragged me from that to close to 4 minutes for 1500. Mark has been there and had all the experience and knowhow. I admire Mark from that point of view'

'I admire any master athlete who continues their sport. The late 30's and into their 40's. I am inspired by seeing the 50's and 60 year old guys running round the track. That is an inspiration in itself. To think I could still be doing that at that age '"

'I have always been competitive at something. I could not imagine the day when I don't want to do something active and train with a view to competing at some stage, since I was a teenager and I hope to keep going.'

His Club Annadale Striders

" Annadale is a Belfast based athletics club. A great club. I have only been with them 2 or 3 years. I was a member of North Belfast Harriers which I really enjoyed but 'Striders' would be more of a track club. That was the reason I made the move to striders."

OBITUARIES

WE received a letter from Jo Ogden's nephew informing us that Jo died of cancer in Lincoln Hospital on the 30th May this year, aged 83.

Jo still holds 6 T&F Championship Bests in the 100m; 200m; HT & JT.

Michael Hall of 10, Orchard Drive. Durham, DH1 1LA died in March this year.

PAT GREEN 1930-2011

Pat Green, a stalwart of SCVAC, died on August 15th. As a pupil at Hendon County Grammar School he was keen on sport and became a good footballer and on leaving school in 1946 he took up employment in insurance with Legal and General. The company had a thriving sports club with up to eight football teams at some times, and at the tender age of 16 Pat was recruited straight into the first team, and continued to play, later in the veterans' team, until the age of 57. He became captain of the company's sports club, holding the post for 25 years, playing football and cricket, and organising many fixtures, including some tours abroad, football tours to Europe and a cricket tour to South Africa.

Pat also took up athletics, joining Serpentine and, as a veteran, SCVAC. He tried sprinting and was quite fast, but settled into distance running for most of his races. He competed on the road and track, running a total of 16 marathons at various venues around the world, including London and New York, and in many WMA and EVAA championships as far afield as Canada, USA and Japan.

After his retirement from Legal and General in 1988 he had more time for his running and took up athletics administration, becoming a member of the SCVAC committee and in the 1990s the track and field secretary and so organiser of the newly created evening league. He was still busy at the same time travelling to regional, national and international master's track and field meetings to compete and as support to his wife Brenda, in her sprinting career.

Sadly in recent years ill health forced him to give up running and resign from the SCVAC committee and he became unable to travel as Brenda's support. The large attendance at his funeral was a clear indication that he will be missed very much, of course by his family, Brenda, his son Chris, his four grandchildren and by his many friends and colleagues from his Legal and General and football days, and from Serpentine and SCVAC.

Arthur Kimber

IN LOVING MEMORY OF

Colin Simpson

2nd April 1929 ~ 24th July 2011

We regret to inform you of the death of Midland Master's member number one, Colin Simpson who passed away on the 24th July 2011.

His funeral service was held at Robin Hood Crematorium, Shirley near to the home he shared with Margaret and the children for many years.

The chapel was fittingly crowded with many old friends and acquaintances many standing to remember this popular administrator and athlete.

The esteem is such for Colin that a special edition of the "Midland Master Athlete" was produced which carried many tributes, should you wish to view these the link is:

Sacramento hosted the 19th running of the above biennial Championships from 6-17 July and despite being sited in the opulent State of California, costs were cut to the very bone. Furrowed brows stared disbelievably at Hornet stadium, the premier track, that was without changing rooms or showers and sometimes had queues for the limited toilets facilities. There was little cover either for the many spectators from the burning sun and the only food outlet was a van parked trackside and a small but very welcoming campus café run by some Vietnamese. The three tracks are part of University campuses on lease to the organisers who apparently were charged for every facility. The second track conveniently close to a Light Rail station had changing facilities and it is puzzling therefore why more events were not scheduled there. Competitors were reporting in for their event as early as 06.00 in the morning in a tight schedule that allowed for a few hours break during the hottest part of the day. Getting home in the evening was a problem for those billeted further out as the Light Rail connecting tracks and downtown hotels, stopped running at 21.00, well before the last scheduled event. Personal safety was another concern, the shuttle buses ran late but only to the main hotels. With entries struggling to reach 5,000 competitors, due no doubt to the economic downturn - more visible there with its empty shopping malls, restaurants etc - high air fares and the difficulty some countries have in obtaining a visa to enter the USA, one has to sympathise with the Organising Committee who take on this mammoth task and they did well to get some local sponsorship and over 500 very helpful volunteers.

Rex Harvey, the former W.M.A Track & Field Vice President, as Meeting Director ensured that technically the meeting was well organised with only a few glitches that were quickly remedied. It is encouraging to see countries such as Senegal, Belize, Fiji, Liberia and U.S. Virgin Islands amongst the 93 countries participating as our sport continues to expand. This Championship was noted for the high number of Olympic athletes entered - Al Joyner the 1984 Olympic triple jump champion, Willie Banks, the former world record holder in this discipline and a three time Olympian. Double Olympic gold medallist Jearl Clark pulled out of the W45 800m at the last moment apparently injured. Zola Budd, Ed Burke, a three-time Olympian, entered the M70 hammer and weight, the Swede Hans Lagerqvist in the M70 pole vault and the Puerto Rican sprinter Marie Mathieu as well as our walker Ian Richards and Justin Chaston, to name but a few.

Our smaller than normal team of 195, 187 of whom actually competed, were minus our emblematic sprinters Stephen Peters and Viv Oliver, the defending W35 400/800m Nina Anderson, Kermitt Bentham and Justin Chaston, but still returned to base loaded with medals and several season's best performances. With top American and Caribbean sprinters on show the British got value for money with Preliminary, Quarter and Semis needed in the younger age groups. Plymouth flyer Julia Hubbard was delighted with her

W35 individual 200m gold and 100m silver. 47 men from 21 countries entered the M35-39 200m, Jim Tipper and Ed White got through their heats and semis in the 100/200m with Tipper collecting 3rd in the 100m, White 6th and 5th/7th in their 200 final. There was drama in the M40 100m final when Darren Scott hopped to a standstill just 10m short of the

finishing line when leading allowing the beautifully smooth Mark Dunwell to come through to collect another major title ahead of Pendland and Anthony Prior of the USA and the 3rd British finalist Jason Carty. Scott had won his heat and with 10.89sec in his semi, was fastest qualifier going into the final. Three false starts did not help and he cramped badly losing any chance of a sprint double.

Kingston sprinter Pat Logan must have read through the 80 entries in his M50 100m with disbelief! Olympians Willie Gault, Karl Smith of Jamaica and previous age group winner, Martin Krulee, were amongst a distinguished list. Gault, a double Olympian went on to take the final in 10.96sec into a 0.5m headwind, slower than his pending 10.88sec M50 World Record set earlier this year, and by far the fastest of any age category, Logan snatched the bronze in 11.62 behind another American Ken Eaton in one of the most eagerly awaited finals. The sprinters complained that they found the track surface hard, it is remarkable therefore that evergreen Wally Franklyn, now aged 58, was able to get 3rd in the 400m after getting through to the 100/200m finals and still had the legs left to run the two relays.

MASTERS ATHLETICS AUTUMN 2011

The medals continued to roll in the 200m as Scott had recovered sufficiently to survive another round of heats and semis to win in 22.20 from Dunwell.

Carty and Will MacGee were 7th and 8th in a race whittled down from 50 starters, MacGee at age 53 was the oldest one to get through to the final. Logan got his second medal, silver, in a final dominated by USA and the other three Britons John Wright 4th, Michael Vassiliou 5th and Jeff Battista 7th Gault hobbling home 8th another victim of cramp.

The M35 400m was won in a sizzling 47.34sec by the American Dussett, Darren Scott was pleased with his 49.81sec clocking behind Eric Prince, USA, 49.61 in the M40 group. The women's 400m were as demanding, a time of 57.42 was needed to win the W40 race, Denise Morley got yet another top placing, getting the bronze here as did Virginia Mitchell in the W45, but it was 1 and 2 in the W55 race as Caroline Powell added to her 200m silver with a clear victory from Joylyn Saunders-Mullins. The Masters are the only British sprinters who can come home from the Americas with medals around their neck and from such huge international entries.

Weather conditions varied from 95°F on the first two days to as low as 54° some mornings, athletes were actually complaining of the cold as they reported in but as soon as the sun appeared the daily temperature was back well into

the 80-ies. All top USA 800m runners were there, M40 Neil Fitzgerald, the undefeated M50 Anselm LeBourne and multi-record holder Nolan Shaheed surprisingly lost out to the Colombian Loaiza in a thrilling M60 race won in 2.11.65 to

Shadeed's 2.11.98, well below the 2.8.65sec record he set earlier this year. Alasdair Dunlop, Denise Morley, W50 Laura Mahady, W60 Angela Copson, W65 Pat Gallagher and W75 Anne Martin all collected silver in their age group. After re-writing the M55 Oceania records all last season, the appearance of the M55 Australian Keith Bateman was eagerly awaited and he did not disappoint, racing home in a 1500m World Record time of 4.12.35sec. Alasdair Dunlop set a British record 4.25.81 in 3rd place. Pat Gallagher, Anne Martin and David Oxland all added to their medal tally. David had handed Shaheed, a Californian jazz musician, a rare defeat in the 5000m earlier in the Championships when the Nottingham man held on to win by just 3/100sec.

MASTERS ATHLETICS AUTUMN 2011

One of the most prolific medallists was the British-born Canadian, Ed Whitlock, who ran amazing times for an 80-year old setting World marks for 1500, 5.48.93, 5000m 21.32.87sec and 10,000 in 42.39.55sec after his incredible fast marathon in Rotterdam in the spring.

Whilst Angela, Pat and Anne Martin were bagging all their 1500m-plus age group titles, Sacramento will remain a painful memory for one of our other star performers. Greg Dunson. Defending the M45 110mH title he won in Lahti in a European record 15.05sec, the Telford man was the fastest qualifier but a hip injury coming out of the blocks in the final shattered all his dreams, he saw his title go to David Ashford of the USA in 15.37. What the hurdles lacked in depth, they certainly more than compensated for in quality from the strong home entry. Don Drummond, USA, only managed 3rd in the M40 final in 15.16sec just ahead of Joe Appiah 15.19.

Jean Fail W60 Hurdles winner (TP)

There were wins for M75 Tony Bowman and W60 Jean Fail, Carole Filer got 2nd and Sally Steggles 3rd in their age categories in the 80mH and minor medals in the 300mH. Hardy perennial Barry Ferguson raced to victory in the M60 100mH, Tony Wells recorded 49.14sec in his M60 300mH qualifying round and 4th in the final. The two West Country hurdlers, Jane Horder and Jonathan Tilt were 2nd in their

Virginia Mitchell (Gold) Jon Tilt (Silver) (TP)

400mH finals but Virginia Mitchell had a hard fight with Ireland's Geraldine Finnegan to retain her W45 title in 65.65 to Geraldine's 66.65sec. The jumps brought together some intriguing clashes apart from the appearance of Al Joyner, 3rd in the M50 triple jump, an event he once dominated but conceded defeat here to the much inform defending champion, Wolfgang Knabe of Germany, who cleared 13.90m to Joyner's 13.19m. Willie Banks also had to give way to the Austrian Georg Werthner in the M55 group by some 17cm. Another Olympian, Jim Barrineau, cleared 1.78m to take the M55 high jump. Spectators flocked to watch these entertaining events as the USA dominated the

men's HJ with three M50-ies clearing 1.81m. The pole vault lacked European entries and some age groups were also affected by a cross wind, the M50 4.60m winning height by the host country's Paul Babits would have won the younger age categories.

Five Golds for Evaun Williams (TP)

Field events are too often relegated to distant parts, but here they were in an area adjacent to the main track with up to three events running simultaneously in warm sunshine and featuring throwers from all parts of the globe. The USA only managed to claim two age group titles in both the men's and women's Shot, a Trinidadian won the W35 title. Susan Lawrence was 2nd in the W40 as Evaun Williams notched up gold in the W70. Throwing distances in the discus competition were under par with previous World Championships despite the international mix, 44 entries from 19 nations in the M60 for instance. The hammer also lacked quality with only the three times Olympian, Ed Burke, USA, with a throw of 55.12m for the M70 title getting anywhere near the top ranking. Leslie D'Arcy set a British M90 record. The women's event featured the remarkable Oneitheia Lewis, USA, getting perilously close to the World mark with a 54.67m winning throw with the 3k implement. She also had a decisive win in the Weight throw. Andrea Jenkins ventured very successfully into international Masters competition winning the W35 age group double as did Evaun Williams, and later adding the Weight Pentathlon. Steve Whyte had a great tussle with the Australian 1986 Commonwealth Games representative, Stuart Gyngell, in the M45 Weight Pentathlon. Steve sent the hammer out to 54.08m to gain valuable points over his close rival. The many other British entries had mixed successes.

The heptathlon and decathlon and cross-country are now established as the first events, here it also happened to be by far the warmest two days. The younger age groups had

MASTERS ATHLETICS AUTUMN 2011

to find their way to the third stadium out at American River College for the multi events and those of us who had just stepped off the plane had to locate Granite Park for a 07.00 reporting in time for the 8km cross-country. Varied cross-country running may be but here there were reports of sightings of a snake, a skunk and wild turkeys on the two-lap course that started in an open field and then out over an undulating trail. The presence of Zola Pieterse (nee Budd) in the W45 race aroused some curiosity and she looked so happy and relaxed shooting to the head of the field in the combined W35-59 race doing what she clearly loves – just running – this time in shoes and looking a little more curvaceous as they disappeared out on to the trail. A few others in the race were unfazed however and her lead was quickly closed by the Belgian W45 multi World and European champion, Corinne Debaets, our own Susan Ridley and a few 40 year olds gave chase. Re-entering the field, it was the svelte W45 Spaniard, Castro, who had come through on the last lap with Zola some 27sec adrift and Susan Ridley having another superb run for 3rd leading the British tight packing W45 team to victory. Debaets had surprisingly dropped out. Interviewed afterwards Zola, the mother of three, said this event shows how running can be part of your whole life and how you can use running as a tool to improve it. Individual winners were David Oxland in the M60, Ros Tabor W60 and Anne Martin in the W75. Despite sparse British entries, Mike Deegan held on courageously to take the bronze in the M55 despite an injury, the M45 team were 2nd behind the USA; the M60 team finished 3rd behind Russia and the USA. Our M80 team of Derek Howarth, 2nd, Arthur Walsham and the irrepressible Ron Franklin were awarded the M80 team gold after a disqualification was successfully overturned.

Louise Oliver Heptathlon Bronze

Whilst the heat at the cross-country favoured the strong South American and Oceania teams, our multi eventers were also affected. The Australian ex-jumper, Marie Kay set a new World W50 6202 heptathlon score and Ireland's talented all-

rounder, Geraldine Finnegan, launched her medal winning spree. There were silver medals for W40 Louise Oliver and

Allan Leiper & Darren Dodds (LO)

M50 Allan Leiper. Gayle Clarke got her first medal, 3rd in the W50 and M35 Darren Dodds was 3rd in the Decathlon 72pts down on the Brazilian Souza. With the Championships on American soil the Mexicans were there in force in the Walks taking several individual and team titles.

No fewer than 20 countries shared the medals in the men's walks, including the Dominican Republic and Costa Rica. Only two women and 13 men were DQ'd this time from all races, again mostly in the 70-plus groups and with up to 25 finishers in some age categories. There were British successes as Ian Richards finished 3rd in his 5, 10 and 20km races, Ed Shillabeer went on to win the M70 20km from Hermann Ing Strieder of Austria who had beaten him earlier in the 10km. It was a successful trip for M75 Dave Stevens with a British record in the 10k after his bronze in the 5km. It was a pity more of our walkers were not able to make the trip as it was a rare opportunity to compete against so many South American and Oceania walkers.

The Marathon runners had a very, very early wake-up call as the buses collected them from their hotels at 03.30 for the 05.00 start and five circuits, including two bridges, that hugged the American River Parkway as daylight was just about breaking. Many of you may not be aware but there are also team awards in the marathon. Teams Managers had to submit teams, based on the youngest member in a team, by noon the previous day. We had to down-aged some runners to complete a team and those of you who signed in very late you may have lost out on a medal. After such a gruelling race it would have been nice to have a team medal and this is something that you should remember in future to let the Team Manager know if you will be arriving late. Gavin Jones in 6th overall took the M50 title and led our small group home in 2.40.13sec with the USA-based Martin Tighe immediately behind in 2.40.36 and 2nd M50, M35 Jason Harne, finding a World Championships marathon right on his doorstep, got the bronze in his age category. The M35 team combined times was good enough to beat the USA and Spain, and a further 3rd placing in the M45 team as M45 Martin Ferguson, M60 Alan Appleby, M55 Rob Sargent Alan Roberts closed in. The W45 team of Tracy Gibson, Fiona Bishop and Heather Stuart were awarded a well-deserved silver medal. Back on the main track the host country was dominating the relays but only after some exciting battles with Australia and us. Five World and numerous national age group records were set. The winning USA M35 quartet recorded 41.89sec in the 4 x 100, well inside the 42.51sec official World Record credited to D. Scott, M. Dunwell, J. Tipper and A. Leight since June 2008.

MASTERS ATHLETICS AUTUMN 2011

The two Team Managers, Archie Jenkins and I, with Ian Richards looking after the walkers, were also competitors and Delegates and it was obviously impossible to cover all six venues. Please see under Secretary's Report on some planned changes to future Championships. Many of our members felt that the Banquet, held in an open area adjacent to the beautiful Railway Museum, was poor value for money. The aim was to allow athletes to mix and mingle, listen to the music and generally socialise. One of the lingering criticisms however was the lack of team medals; the Organisers simply ran out of medals! We had to fill in names and address for these to be forwarded on and as we go to print no medals have yet arrived. We understand there was a misunderstanding between W.M.A and the Organisers and not enough medals were ordered. Another unfortunate incident occurred when a local TV station arrived at the track early one morning, interviewed the Press Officer but then proceeded to film two stunt men depicting William chasing Kate in their wedding attire around the track and screened this at 08.00 on the Saturday morning as the Royal couple were on their way home from a visit to Los Angeles. The Press Officer apologised explaining that after the interview the crew had asked if they could film the track, he agreed but unfortunately did not accompany them. We read much about leaving a legacy, how satisfying it must be for the Organising Committee to see so many ex-Collegiate students and University coaches who gave up the sport to pursue professional careers, take up the challenge again just because the Championships were there. Participation and renewing international friendships are as important as winning medals in Masters Athletics.

INTER AREA TRACK AND FIELD CHALLENGE – SOLIHULL – 07.08.11

- ▶ Southern Counties win men's and overall (Bill Taylor) trophy
- ▶ Midland Masters win women's
- ▶ British record for Cecilia Morrison

WORDS – ARTHUR KIMBER
PICTURES-TOM PHILLIPS.

In an extremely competitive match, Southern Counties held off Midland Masters to win the men's trophy by a small margin of nine points, 418-409. Midland Masters had an even closer contest with Eastern Veterans and Southern Counties in the women's match, winning by 2.5 points, Midlanders 322.5, Easterners 320 and Southerners 316. These results gave the overall Bill Taylor Trophy to Southern Veterans by another small margin of 2.5 points, Southern Counties on 734 points to Midland Masters on 731.5.

Peter Davey got Southern Veterans off to a good start winning the first event, the 100m. Hurdles in 17.0. The flat sprints were dominated by record breaker Darren Scott's double victory; he took the M35 100m. in 11.3 and the 200m. in 22.2 for Southern Counties. Midlander J. Wright, M50, scored a 100/200m. double, 11.9/24.2, G Sutton the M60 races for Wales, 13.3/26.6, with Easterner Alan Carter winning the M70 in 15.2. B. Ward was the outstanding 400m. athlete, winning the M35 race for the Midlands in a fast 51.8. The middle distance stars were Southerner Steve Baldock, dipping under the two minute barrier to take the M35 800m. in 1:59.3 and M60 Dave Oxlund's 800/1500m. double for the Midlands with 2:24.9 and 4:45.1.

In the field Southern Counties dominated the shot and discus, M60 Neil Griffin scoring a fine double win with 12.35 and a long 49.72, supported by Allan Leiper's M50 shot win, 12.68, and Colin Brand's 9.87 to take the M70 event. Eastern Veteran D. Sketchley threw a long 59.47 to win the M35 javelin, with Steve Langdon winning the M50 event for the South, while the M50 hammer victory went to S. Woolley, Midland Masters, 37.82.

The pole vault provided exciting contests in both age groups, Southerner Chris Mills and Northerner Mark Johnson producing a tie on 4.20 to win the M35, and Southerner Nick Phipps and Wales' M. Davies on 3.00 in the M50. Ian Allen, South West, jumped an impressive 1.75 to win the M35 high jump and the same club's P Guest triple Jumped 10.94 to take the M50 with Southerner Keith Newton winning the M35 with 12.80.

M70 Easterner M. Simmonds had a busy day to score the highest number of points in the men's match, winning the 400m. in 71.9, placing second in 800m. and shot, 2:51.8 and 7.82. and third in the 3000m. in 13:30.0 – 36 points.

The medley relays were dominated by Midland Masters and Southern Counties, winning two each, Midlanders M35 and M60 and Southerners M50 and M70.

The outstanding performance in the women's competition came from Southern Counties athlete Cecilia Morrison, W70, and placing second in the W60 3000m. in 13:36.0 and breaking her own British record by a huge margin of 20.6 seconds. The race was won by Midlander Angela Copson in a fast 11:34.3.

In the sprints Midlander Vic Bonner ran an impressive 14.6 for an easy win in the W60 100m, while Caroline Powell scored a triple success for South West Veterans, 100m. in 14.2, 200m. in 28.7 and 400m. in 63.4, and W35 Ellena Ruddock a double for Midland Masters, a 12.7 100m. and a 25.5 200m.

W60 Midlander Nancy Hitchmough easily took an impressive 400/800m. double in 75.5 and 2:50.0, while Eastern Veteran Jayne Clarke, W50, scored an impressive distance triple, 800/1500/3000m. in 2:40.1, 5:01.1 and 11:06.4. Eastern Veteran Cath Duhig showed her class in the 2000m. walk, winning the W50 race in 11:32.2 and posting a faster time than all the athletes in the W35 race.

In the field Emma Beales, W35, from Eastern Veterans, took a shot and discus double win, 10.46 and 39.77, while W60 Southerner Liz Sissons won both shot and javelin, 9.44 and 25.80.

Northern Veteran Jennifer Ibbitson, W50, had a busy day winning three events, pole vault 2.70, hammer 40.27 and discus 30.35, with a second place in the shot, to become the highest scorer in the match with 39 points, closely followed by

MASTERS ATHLETICS AUTUMN 2011

Southerner Imeta Barauskiene, W35, on 36.5 points, who won the triple jump, 10.14, tied to win the long jump, 4.90, placed second in the high jump, 1.45 and third in the 80m hurdles, 13.8.

The Midlands swept the board in the medley relays, winning all three races, W35, W50 and W60.

B.M.A.F. DECATHLON & HEPTATHLON , OXFORD-10/11th SEPT.

Words- Bruce Charles.
Picture-Derek Warn.

John
Charlton
with
Bruce
Charles

Oxford provided us with sunshine and an occasional heavy shower and a wind which made hard work for the sprints and hurdles.

We had a very large entry for the Decathlon which included three ladies and we were very glad of the 3rd Pole Vault bed at nearby Tilsley Park. This was an experiment that may well become a necessity if numbers continue to increase.

The picture for the Heptathlon is not however so good with yet another low turnout although there were some very good performances.

In the Decathlon John Charlton again won M60 and in so doing also won the Clarke Cup for the highest age adjusted score of all Decathletes.

In the Heptathlon the corresponding trophy went to Jean Fail whose return to Combined Events was very welcome.

In addition to John Charlton there were three other athletes who exceeded 6000. These were : Tony Bowman (6343), John Mayor (6041) and Darren Dods with 6109.

6000 points is always an indication of a true combined eventer. The outstanding performances in an individual event came from Graham Ley with a 51.90 Javelin, Darren Dods with a 6.57cm long jump, John Mayor 15.98 sec Hurdles and Tony Bowman 14.82sec for 80 m Hurdles at age 76!

In the Heptathlon Amanda Wale ran a very fast 800 m in 2min 32.36 sec. and Louise Oliver an excellent 200m into the wind in 28.79 sec.

Again into a strong -3.9 metre wind Jean Fail ran a terrific 80 m Hurdles in 15.02 sec.

It is always a pleasure to officiate for combined events because the atmosphere between the athletes and between athletes and officials is always so good and this was again very apparent.

BMAF members were entertained with a nourishing bap and jelly when they finished what can only be described as a unique 10 Mile Road Race. Tynedale Harriers had attracted a healthy list of open entry runners and over 70 BMAF members to compete over an undulating, scenic, rural and near traffic free course. When the day was over we once again showed that accommodating BMAF members increases the quality of the field and the final results.

It would be unfair to highlight any particular individual in this race. However, a number of members had competed two weeks ago at Leek and will continue to compete in BMAF races in forthcoming weeks ie the 10 K in Exmouth and the Marathon both in October.

I am in the process of planning for 2012 and I hope you will find time to download a very short questionnaire which will also appear in the forthcoming edition of Masters Athletics. Please e-mail it directly back to me at walterhelen@hotmail.co.uk. I will always aim to distribute Championship Races across Great Britain and seek out those races which allow us an opportunity to celebrate members' achievement at a price which is realistic to all parties.

FRED GIBBS

BMAF TEAMS:

BMAF HALF MARATHON

21st AUGUST.

REPORT: WALTER HILL

The Leek Half was my first Championship Race since being appointed Road Race Sec. I was anxious that all would run smoothly and members would be awarded with the correct medals. I also wanted members to have a good experience and recommend returning if our hosts Staffordshire Moorlands AC would have us back.

All looked good of the morning of the race. A healthy list of BMAF entrants would compete in fine weather and would be challenged by an undulating course along quiet country lanes.

MASTERS ATHLETICS AUTUMN 2011

Des
Michael

Attractive T Shirts were collected prior to the start and the venue provided more than adequate facilities. Of the 60 entrants we had 53 finishers. A sound statistic. Members indicated the strength of the federation with 7 members filling the first 9 places. Michael Aldridge M35 was the overall winner in a very respectable 1-15-36. Yes the course is challenging and he was almost 2 minutes clear of 2nd placed David Evans M35 in 1-17-36.

Lisa Finlay F40 led the BMAF ladies home in 1-29-03. Lisa whose first claim club is Dumfries Running Club returned home having been placed second lady overall. Behind her there was an amazing battle between Michelle Buckle F35 and Mandy Vernon F40 who both recorded the same time of 1-29-29, fortunately for the purpose of the prize presentation they were in different age categories.

The full results are in finishing times and Mark Hall M50 made a mark amongst the younger athletes with a fine 1-19-48. Tracey

Greenway F45 produced a similar performance and was placed 6th overall with a good time of 1-32-24.

The final results highlight many pleasing performances as the course has a reputation of adding 5 or 6 minutes when compared to a flat half.

I am confident that all finishers would want me to thank our hosts. Personally I cannot fault the race. The infrastructure was all in place. Time keeping and results were very efficient which led to a smooth prize presentation where many members left with open prizes. I recommend returning and I am sure all parties would agree.

Andrea
Dennison
